The 6th TAFISA World Sport for All Games in 2016 will firmly place Jakarta in the center of the major international multi-sport event industry.

Welcome word from the chairman

Jakarta is one of the world's greatest secret cities. Although famous for its traffic jams, the city has so much more to offer. As you will notice during your visit, Jakarta is going through a huge infrastructure revolution. New train links, flyovers and airport terminals are being built across and around the city. But beyond the roads and traffic Jakarta and the wider Indonesian archipelago has a wealth of cultural diversity, history and not to forget the beautiful natural sites. Since we won the bid in 2011, it has been our aim to deliver the wonderful TAFISA games (and all the peripheral events) with a mission to show all participants and visitors the true scale of the diversity of our archipelago, home to so many different communities and faith groups speaking over 300 languages, many with their own traditions and sports.

All our essential services, such as transport, accommodation, accreditation and security, have been planned in order to give you the best experience possible.

This guide is designed to enhance your time here in Jakarta and provide you with all the information you need to make the most of your time at the Games. On behalf of everyone at Jakarta 2016 TAFISA Games, I wish you success, fun and companionship at the events. I trust you will long remember your time with us and leave with a wealth of positive experiences.

Please feel welcomed and have a good time,

Hayono Isman
Chairman Jakarta TAFISA Games Organising Committee

Welcome Word from TAFISA President

On behalf of the TAFISA Board of Directors, it is my honor to welcome all delegates to the 6th TAFISA World Sport for All Games 2016 in Jakarta, Indonesia, under the patronage of the IOC, UNESCO and ICSSPE.

The Games promise to be a firework of Traditional Sports and Games, gathering more than 80 countries from all continents. And what a wonderful call is the Games' and Republic of Indonesia's motto, "Unity in Diversity", extending to all participants. In times of conflicts and growing uncertainty across the globe, the TAFISA Games offer a unique moment of togetherness, peace, understanding and sharing among nations, where all cultures and traditions are celebrated. No better place than Jakarta and Indonesia could have been chosen to host this year's event.

I like to extend TAFISA's sincere gratitude to the Games' hosts, the Indonesian Sport for All Federation (FORMI), under the leadership of Mr. Hayono Isman, who have worked tirelessly to make this wonderful event a reality and great success. With your contribution, alongside contributions from hundreds of delegates from all corners of the globe, we will work together to make the 6th TAFISA World Sport for All Games a significant marker in the history of the global Sport for All movement. Together, we will pave the way for a positive and lasting legacy of Sport for All, safeguarding and promotion of Traditional Sports and Games, peace and friendship for generations to come.

History of TAFISA

TAFISA began in the 1960s as the semi-regular gathering of international but individual personalities and leaders interested and working in the field of Sport for All, under the title 'Trim and Fitness'. At the time, Sport for All was a little known concept.

In 1991, the organization TAFISA, Trim And Fitness International Sport for All Association, was officially formed and its statutes registered with the law courts of Frankfurt, Germany.

In 2005, TAFISA became professional with the opening of its office, also in Frankfurt, Germany. Since then, the office and staff numbers regularly and never stopped to grow, documenting TAFISA's success and expansion worldwide.

In 2009, TAFISA officially changed its name to 'The Association For International Sport for All' to more accurately describe its activities and its position as the leading international Sport for All association.

About Indonesia

Indonesia, the largest archipelago and the fifth most populous nation in the world, has a total of 17,508 islands, of which about 6,000 are inhabited. Indonesia extends 3,198 miles (5,150km) between the Australian and Asian continental mainland and divides the Pacific and Indian Oceans at the Equator.

Indonesia has an area of 767,777 square miles (1,919,443 sq. km) scattered over about 13,700 islands. The country also claims sovereignty over 1,308,864 square miles (3,272,160 sq. km) of sea stretching from Asia to Australia. An active volcanic arc runs through Sumatra, Java and the islands of Nusa Tenggara, and then north through Maluku to Sulawesi. It marks the place where tectonic plates plunge one beneath the other.

Wonderful Indonesia

Straddling the equator, situated between the continents of Asia and Australia and between the Pacific and the Indian Oceans, Indonesia has many magnificent islands waiting to be explored.

Some interesting facts:

- 253 million inhabitants (30 million in Greater Jakarta)
- 17,504 islands (10,500 inhabited)
- Over 300 Living Languages spoken
- 16th largest economy in the world (and moving up the ranks fast)
- 50% of Indonesians are under the age of 30
- The world's fourth largest middle class
- Largest Muslim population in the world

Local Amenities

Pharmacies (apotik) are usually reliable. Popular chains include Kimia Farma, Century and Guardian.

Post offices (kantor pos) are located throughout the city and several international courier services have offices in Jakarta, including DHL, FedEx, and UPS. For more information about sending and receiving post, please see: <http://www.expatriat.or.id/info/mailservice.html>

Foreign Exchange

There are no foreign exchange services at Ancol. There are money changers at the airports, furthermore, throughout Jakarta there are numerous foreign and local banks and hotels all offering money exchange services. There are various ATM machines in Ancol which accept most international bank and credit cards. Most shops and restaurants also accept cards.

Exchange rates as of 03.10.2016:

EUR 1 = Rp 14,600

USD 1 = Rp 13,000

Capital City

Jakarta, which is the business and governmental centre, is the country's capital city. Around 10million people live in the city centre, rising to 20million if you include the Outer Jakarta area, putting considerable challenges on the transport and road network. Jakarta has numerous shopping malls and traditional markets. Jakarta has the world's largest shopping mall floor area within a single city!

Other major cities and provinces include Surabaya (second largest city and a major industrial centre and port), Medan and Bandung.

Largest Islands include Sumatra, Java, Kalimantan (Borneo), Sulawesi and Papua account for over 90% of total land area. There are also two large groupings of smaller islands, Maluku and Nusa Tenggara.

Climate

Indonesia has a typically tropical climate marked by heavy rainfall as well as high humidity and temperatures. Rainfall increases during the monsoon season, which typically runs from October to April. Mountains in large parts of the country moderate the tropical climate. Temperatures generally range from 23° to 33°C.

Electricity

230V/50hz

Data through your smartphone is often the fastest way to connect to the Internet. 4G services are widespread. Mobile phones are common across Indonesia; numbers usually start with 08 and don't require an area code.

Cuisine

The local cuisine of Jakarta is the Betawi cuisine and is heavily influenced by Malay-Chinese Peranakan cuisine, neighbouring Sudanese and Javanese cuisine, but also includes Indian, Arabic and European colonial influences. Jakarta has a vast range of food available at hundreds of eating venues and food courts located all over the city, from modest street-side food stalls and travelling vendors to high-end fine dining restaurants.

Currency and Tipping

The unit of currency used in Indonesia is the rupiah (Rp). Coins of 50Rp, 100Rp, 200Rp, 500Rp and 1000Rp are in circulation. Notes come in 2000Rp, 5000Rp, 10,000Rp, 20,000Rp, 50,000Rp and 100,000Rp denominations.

Tipping a set percentage is not expected in Indonesia, but if the service is good, you can leave 5000Rp or 10%.

Most midrange hotels and restaurants and all top-end hotels and restaurants add 21% to the bill for tax and service (known as 'plus plus').

Economy

Indonesia is an emerging economy, with the benefits and opportunities of a large, rapidly expanding population and the upside of a remarkable economic growth story. Although it has faced some economic challenges over the last 5 years, a positive longer-term outlook for Indonesia is expected based on its location in the world's fastest growing region and underpinned by the power of optimism and positive sentiment. The wealth of the population is significantly divided. Although there is a growing middle class, the World Bank estimates that 200 million or 82% of Indonesia's population still live on less than \$USD4 a day, with half of these on \$USD2. Minimum wage is dictated by the provinces and in Jakarta it is around USD 300 per month (75% salary and the rest a fixed payment). Working week is 5 or 6 days, and 7 or 8 hours a day, with any additional hours paid with overtime. Nationals receive additional months' salary after 12months service known as a religious festivity allowance.

Health Care and Medical

Standard medical facilities for delegates will be provided at the venue. There will be a prominent medical team standing by the venue, for first aid and emergency conditions. Any further and major treatment will be carried out at the local hospital, where a twenty-four hour medical service will be available and a general practitioner will be working on duty throughout the day. Delegates will be responsible for the costs incurred of any hospital treatment, and should therefore ensure that they have appropriate insurance coverage prior to travelling to Indonesia.

At the time of writing, the only vaccine required by international regulations is yellow fever. Proof of vaccination will only be required if you have visited a country in the yellow-fever zone (primarily some parts of Africa and South America) within the six days prior to entering Southeast Asia.

We always recommend you consult with your own doctor for accurate advice. Never drink tap water in Indonesia.

Road and traffic conditions are poor. For most buses are the most common way of getting around. Drivers drive on the left hand side of the road.

Metered taxis are readily available in major cities. If a taxi has a meter, make sure it is used. Where meters don't exist, you will have to bargain for the fare in advance.
