Rd = round; 9T2 implies that the player in that row played player in row 9 and obtained 2 goals after the two games of encounter. The points obtained in this case would be 1 point since the opponent also obtained 2 goals. The points in each round obtained are not indicated but are inferred from the goals the players score after the two games and therefore a column having total points obtained is indicated to rank the players.

The 1st competitive event of draughts for 2017 was played in Lira on Sunday 15th January 2017. The positions of the players are indicated in the extreme right hand column of the table. The first position was highly contested with the 1st and 2nd players split by the difference in the strengths of the players they played. Sam Senoga managed to defend his 1st position that he attained in the year 2016 in Lira. Generally the first slots were taken by the visiting players with the best player from Lira getting the 10th position. The tournament was rapid with a time of 5 minutes and 2 seconds per move allowed for a game. The second tournament on the UDF calendar will be on 29th January 2017 in Mbale where the players will play in Russian draughts. The tournament was officiated by Dan Isabirye.
